
FAQ

WHAT IS THE AVIVA HAIR REVITALIZER ADVANCED HAIR GROWTH* SYSTEM?

Aviva is a scientifically formulated hair revitalizer that stimulates healthy hair growth from within. Aviva's exclusive formula combines the strength of two proprietary complexes, Pentaplex HGF and Tetra-HHL. All-natural ingredients packed into a fish-free, odorless, and easy to take softgel work with your natural hair growth cycle, enriching and enhancing for longer, stronger, thicker and beautiful, healthy looking hair.

HOW DOES AVIVA WORK?

Aviva's proprietary dual complex works with your natural hair growth cycle to stimulate healthy hair growth from within - up to 6mm beneath the scalp's surface - to enrich and enhance the follicle, allowing it to produce stronger, thicker, and beautiful hair. As Aviva stimulates and improves the health of these hair follicles deep beneath the surface, it revitalizes the hair's DNA. Working with your natural hair growth cycle, Aviva helps support hair structure and encourages new, emerging hair.

IS AVIVA SUITABLE FOR EVERYONE?

Aviva is suitable for both men and women over the age of 18, of all races and hair types. Aviva™ is not suitable for children under 18, women who may be pregnant or breastfeeding, vegans, and those on a Kosher diet. Aviva™ does not contain dairy, soybeans, nuts, or eggs. It is always advisable to consult with a physician before taking any dietary supplement.

WHAT IS THE RECOMMENDED DAILY INTAKE OF AVIVA?

As part of your beauty routine, take two softgels daily, (one in the morning and another at night) ideally with meals. Use as directed for a minimum of 3-6 months to achieve the best results. Softgels are easy to take, odorless and tasteless.

WHAT ARE THE PENTAPLEX HGF AND TETRA HHL DUAL COMPLEXES?

PENTAPLEX and TETRAPlex are a proprietary marine complex available exclusively in AVIVA hair growth* supplements.

WILL AVIVA WORK FOR ME?

Aviva high performance hair nutrition promote the growth* of existing hair and nourish hair through a daily dose of nutrients and vitamins. There are many factors that can cause of hair loss and we recommend that you consult your physician before beginning any dietary supplement.

WHAT HAPPENS WHEN I STOP TAKING AVIVA, DO I HAVE TO TAKE IT FOR LIFE?

Once you stop taking Aviva your regular hair growth pattern will resume but there are no side effects associated with discontinuing the use Aviva.

WHAT ARE SIDE EFFECTS OF AVIVA?

Aviva is 100% drug free. Through clinical trials, no known side effects were reported, though some users enjoyed noticeably faster and stronger nail growth.

HOW LONG WILL IT TAKE TO SEE RESULTS FROM AVIVA?

Aviva is high performance hair nutrition for all hair types and textures. Achieving best results when taken for a minimum of 3-6 months, with most users noticing a difference after just 3-4 months. As it can take an average of 6 months to achieve the healthiest, fullest and strongest hair. Through continued use, Aviva enables you to achieve five levels of healthy hair growth:

LEVEL 1 - The active ingredients in every Aviva softgel deliver essential daily nourishment to every hair follicle, providing key nutrients with it's dual complex of Pentaplex and TetraPlex.

LEVEL 2 - Healthy hair starts from within - up to 6mm beneath the scalp's surface. Aviva begins to work on healthy hair production.

LEVEL 3 - Baby hairs begin to emerge around the hairline. Thin, dull and wispy hair is nourished by the dual complex. Healthy hair growth continues as hair shedding and breakage is reduced.

LEVEL 4 - New nourished hair emerges on the scalp faster looking stronger, thicker and more beautiful, while existing hair becomes healthier, stronger and more vibrant.

LEVEL 5 - Aviva dual complex of Pentaplex and TetraPlex work to speeding up the hair growth phase and slowing down the resting phase and decreasing the shedding phase of the hair growth cycle.

WHAT IS THE ALLERGY ADVICE ASSOCIATED WITH AVIVA?

Aviva supplements have not show to cause any recorded allergic reactions. Please see the ingredients and nutritional table before taking Aviva. If you experience an allergic reaction discontinue use and consult your doctor immediately. Not recommended for women who are pregnant or breastfeeding.
